

Gabrielle

Gabrielle

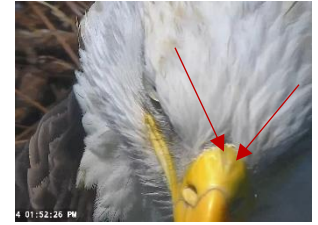

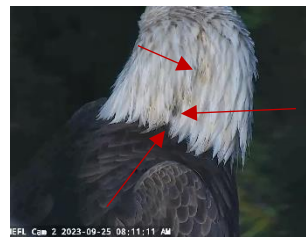

V3

- Thinner teardrop or "S" shaped nare
- Upturned gape (Mona Lisa smile)
- Grey feathering "racing stripes" below and behind eye curving down to front of neck
- Distinct dark feathers sprinkled through lower neck feathers
- Brow over eye is flatter, extends back farther
- Distinct bump on beak

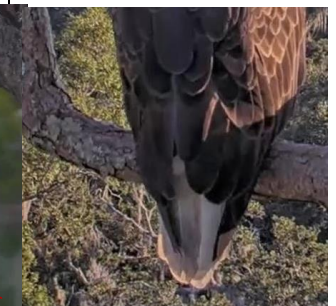

- More elliptical, fatter nare
- Dark mark just below and right of right nare
- Pronounced point at back of eye
- Upturned gape
- Tan/yellowish feathers along side of head and in back
- Two flecks in left eye – one at 8 o'clock and one at 2 o'clock (faint speck in right eye is sometimes visible at 7 o'clock)

- Note shape of nape; feathers almost all white
- Top of back the feathers are white tipped (this could be due to a molt and may fade over course of the season)

- Note notch in nape of neck feathers
- Center line of back head feathers somewhat tan/yellowish
- Dark feather just above notch in nape

2 small indentations top of cere

- Note marks up upper part of tail
- Tail mostly white but edges appear to have tan/yellowish tint

- Note two small streaks on tail
- Tail has grayish smudge-like areas in the middle

Gabrielle's feet and toes are larger, thicker and free of wounds or injuries  
Size Difference – Gabrielle (bottom of picture) is larger

V3's feet are smaller, thinner and have several healed wounds and scars
